

HELP INDIA

Defeat the Second COVID 19 Wave!

As the number of Covid cases rise every day, the country's overwhelmed healthcare system struggles more and more to provide proper care to patients. The **RIA Cares** Emergency Relief Fund was created in response to the global crisis that has catastrophically impacted India.

100% of funds collected will aid RIA employees and extended families who are struggling financially, and help support small, overcrowded hospitals with desperately needed supplies. Donations made will give these families the relief they need to act quickly and protect the most vulnerable in their communities.

Please join us in supporting those in critical need by donating and spreading the word to friends, family, and on social media platforms.

**Pledge
Today!**

Your help is needed now more than ever.

If you know someone in need of aid, please contact us at RIACares@riaadvisory.com
